# TO THE TRADE

## This List Cancels All Previous Lists

**Packing.** Net f. o. b. our shipping points. Packing charges are extra. We make no charge for packing car lot orders in bulk.

### NOTICE!

We anticipate that there will be many shortages before the Planting Season is over. All prices in this list are subject to change without notice. All quotations are made for immediate acceptance and with the understanding that all orders placed by us with our shippers are placed subject to shipper having stock on hand at the time your order is received. We advise you to place all orders early.

### Prices are subject to change without notice.

Orders are accepted on condition that they shall be void should stock become injured by frost or other causes beyond our control. We cannot be responsible for loss caused by damage or delay in transit. If such damage occurs, it must be reported and entered immediately with your local agent of the transportation company.

**Claims** for error or shortage will be gladly corrected, but we must be notified within **ten days** after arrival of the stock. Such claims must be based upon an actual check of material at the time shipment arrives and not after it has been sold or lined out.

**Quantity Discount.** Five plants furnished at the 10 rate, 25 at the 100 rate and 250 at the 1,000 rate.

**Guarantee.** Prices do not include any guarantee of growth.

**Terms.** All accounts are due and payable 60 days from date of invoice. Cash, security, or satisfactory Trade references will be required from unknown parties. Interest at 6% will be charged upon all past due accounts. Cash discounts: 2% 10 days; 1% 30 days from date of invoice.

Where quantity ordered is of sufficient amount we can arrange for shipment by motor truck at reasonable rates. Our favorable locations make it advantageous for our customers to come with their trucks and take away their purchases.

### OUR SERVICE

We always use the greatest care in placing orders for material where we believe the customer's interests will be best served as regards transportation, etc. Sometimes we receive orders for material of which we are either sold out or do not list. In such cases we fill the order, if possible, from the nearest source of dependable stock. This service, we believe, means much to our customers, especially during the busy planting seasons.

**TREE WISTERIA**

F. O. B. Ohio Shipping Point

No more lovely sight can be imagined than a Tree Wisteria in bloom. The purplish blue flowers completely cover the tree during May, transforming it into a sheer beauty. In formal gardens, Tree Wisterias are indispensable. On the lawn they develop into beautiful specimens and live for generations increasing in beauty and dignity each successive season. The plants we offer are grown on stems about 4 feet high and the crowns are about 2½ to 3 feet in diameter. Every plant has bloomed.

**Blue.** The most popular color Each \$3.50, Doz. \$36.00

**White.** Silvery white blooms Each \$4.50, Doz. \$46.00

**KOREAN BARBERRY****TRUEHEDGE COLUMNBERRY OR COLUMN BARBERRY****(Berberis thunbergi erecta)****United States Plant Patent No. 110**

A fine upright new form of Barberry, pyramidal, with a very dense growth and heavy foliage evenly distributed from the ground up; berries similar in color and size to Berberis thunbergi. Can be grown like boxwood. Very desirable for compact hedges and a welcome addition to our list of Hedge Plants.

**EUONYMUS—(See EVERGREEN SHRUB SECTION)****FORMULA "66"**

A Hormone Powder for the general promotion of the root system on cuttings, seeds and bulbs.

Cuttings dipped in Formula "66" will root in less time and form a much larger root mass. Also helps rooting bed to be free from mildew, rot, etc., due to a certain chemical combination.

Using Formula "66" is the ideal way to root all kinds of cuttings. Constant tests have shown as high as 90 percent strike in all types of cuttings.

**Seeds**—Seeds of all kinds dusted with Formula "66" will show a very high percentage of germination and develop into sturdy seedlings because Formula "66" not only helps germination but also feeds the young plants.

2 oz., \$1.00

1 lb., \$5.00

**MEAGHER'S IVY****(Hedera helix meagheri)**

A new miniature Ivy. Very promising as a ground cover and a beautiful plant for underplanting among Broadleaf Evergreens and Conifers. Apparently as hardy as Hedera helix.

## PHYSOSTEGIA OR FALSE DRAGONHEAD

### Two New Bristol Introductions—1938

**SUMMER GLOW (3-32).** Towering stems often exceeding four feet, terminating in colorful spikes eighteen inches in length; similar to the parent, "Gigantea" but of a rosy crimson color that is altogether attractive and far more effective. A splendid background or cut-flower variety, it will supersede the older kind. Height, 4 feet. In full flower mid-August.

**ROSY SPIRE (4-34).** Similar to the above but a shade deeper in color. Somewhat more compact in its inflorescence, it resembles the rosy crimson parent "Vivid" but attains a height of 3 to 3½ feet and is decidedly colorful in mid-September.

3 in. Pots, \$2.50 per doz.; \$15.00 per 100.

## HARDY CHRYSANTHEMUMS

Except in the most Northern part of our territory, we wish to call to your attention the value of HARDY CHRYSANTHEMUMS. The earlier and more dwarf varieties give an abundance of flowers of a good color range. These are followed by the vivid colorings of the Korean Hybrids originated by Bristol Nurseries. These superb varieties will flower from September 15th to October 20th, depending upon variety. When flowers are scarce these Mums brighten up the garden as nothing else can brighten it at that time of year. In the colder areas and in sections exposed to frost these plants will often start blooming after having been frosted. All in all, there is nothing to equal the Bristol Koreans for Fall flowers. To the Florist, even in areas where early frosts occur, we unhesitatingly recommend Korean Mums as a plant to be grown in frames and sash-houses. This type of Mums as a late fall cut flower is enthusiastically welcomed by the buying public as it is impossible to duplicate the Korean colors in the greenhouse varieties. We have Florist customers who find these Koreans a welcome addition to their list of Mums. Write us for a list of varieties best adapted for cut flower use. Also write for our color plate of Korean Mums. Also remember that all Koreans are not Bristol's. Ask for the varieties originated by Bristol Nurseries. There is a reason. See list of varieties and prices on page 49. Be sure to visit Bristol Nurseries in September and October to see these Chrysanthemums in flower.
